Clementi Town Secondary School

Ministry of Education
Republic of Singapore

Jothilingam Dheeraj was a student of Clementi Town Secondary School from 2015 to 2018.

An amicable individual with a quiet confidence about him, Dheeraj never shirks from helping his peers and teachers when the need arises. In his years in CTSS, his sincere and authentic personality has helped him to forge strong peer relations with other students.

Dheeraj is a perceptive and determined student with a keenness in learning who constantly seeks to improve himself and excel in his studies. His interests and passion lie in the Sciences, and he was selected to represent the school in various academic competitions such as the Australian Mathematics Competition in 2016 and 2017, Biology Olympiad in 2018 and Chemistry Olympiad in 2018. Dheeraj also picked up learning the Chinese Language through the Chinese Special Program, which reflects how he has a thirst for knowledge and never passes over an opportunity to learn.

Dheeraj also showed the same kind of passion and enthusiasm as an active member of the National Police Cadet Corps (NPCC) and was promoted to Staff Sergeant in 2018. He has participated in the Annual Parade and Inter-Unit Drill Competition organised by the NPCC Headquarters in 2017 and has helped the unit to achieve the Gold award for the Overall Unit Proficiency in the four years as an NPCC cadet in CTSS.

Dheeraj was seen to have high leadership potential and was appointed a Student Councilor since he was in Secondary One. He started out as an earnest Junior Councilor who sought every opportunity to serve the school and learn from his seniors. He then progressed to being a Senior Councilor, a role which sees him actively involved in the planning and execution of the Service Learning Projects in the Student Council and several school events such as the School Speech Day, the Teachers' Day Concert as the Logistic in-charge and the School Open House as the Tour Guide.

As an active contributor to the community, Dheeraj was one of the leaders for the class Values in Action Projects in 2017 at the Kandang Kerbau Women's and Children's Hospital, and again in 2018 for the Causes of Animals of Singapore.

A highly motivated and capable gentleman who has the passion to learn wherever he is, Dheeraj will be a valuable asset to any organisation and institution which he is a part of.

Dheeraj Jothilingam

Dheeraj Jothilingam joined ACS (International) in February 2019. He completed the International Baccalaureate Diploma Programme (IBDP) in 2020.

For his Extended Essay, Dheeraj chose Mathematics as his area of study with the Research Question: "How to use statistics to determine which of two movies – 'Avengers; Endgame' or 'Avatar' is rated more highly?" This essay shows his interest in creatively applying Mathematics, which he is studying at Higher Level, and developing research and analytical skills to pursue a tertiary course in IT or Engineering.

Dheeraj has made significant contributions to school life, taking advantage of the many opportunities open to him. He served as a House Prefect (Charity) for Shaw Vee Meng (SVM) House in 2019 and was involved in a variety of sporting, cultural and charitable activities. He was also Captain of the Cricket Co-Curricular Activity (CCA) and was proud to lead the team to the qualifying rounds of the 2020 Singapore Cricket Competition. He was involved in training the squad, including members new to the game, as he wanted to make sure that his juniors would inherit a stronger Cricket CCA.

Away from the academics, Dheeraj has also found time to take part in many organised CCA activities, across a wide range of disciplines. He has been a very enthusiastic member of the Envoy/Model United Nations Club and was pleased with his role as a judge for the International Criminal Court at the OFS MUN in November 2019. His interest in Science is also clearly demonstrated in a variety of CCA pursuits in which he was engaged in, such as the EIC Engineering Challenge, STEM Workshop and the Young Technopreneurs for a Sustainable 2030 Challenge hackathon, in 2019. In his previous school, Dheeraj was a Staff Sergeant in the National Police Cadet Corps (NPCC) uniform group and represented the school in a number of academic competitions in both Science and Mathematics.

Dheeraj has demonstrated a caring side to his character through a variety of charitable and service activities that he has undertaken in his previous school as well as at ACS (International). He was involved in raising funds for the elderly and also helped to refurbish homes of low-income families. In 2019, Dheeraj went on the service trip to Malaysia where he taught Maths and Science to 4–14 year olds in a children's home and also helped to renovate their classrooms. He was also involved in a conservation project which involved planting and protecting rare pitcher plants. Before embarking on this service trip, he collaborated with others to successfully raise over $1,000 to donate to the children's home there.

Testimonial

In summary, Dheeraj is a personable, enthusiastic and amicable young man who has gained the respect and admiration of his peers and teachers. He is unfailingly cheerful, polite and accommodating with those around him. We highly recommend him for any future course of action or direction he wishes to take and are confident that he will be an asset to any institute of further learning.
